TOWN OF EAST GWILLIMBURY

REGISTER OF PROPERTIES OF CULTURAL HERITAGE VALUE OR INTEREST

Overview of the Register

The Ontario Heritage Act provides municipalities with the authority to keep a record of properties considered to have cultural heritage value or interest. This record is called a Register of Properties of Cultural Heritage Value or Interest, and it is often referred to simply as a Heritage Register.

The Town of East Gwillimbury's Heritage Register was updated in 2021 and includes approximately 390 properties. The Register includes both designated properties as well as Listed (non-designated) properties.

Designated Properties (Part IV or Part V):

Properties designated under Part IV or V of the Ontario Heritage Act have a By-law registered on title recognizing the heritage significance and attributes of the property. Designated properties are required to obtain municipal approval prior to any alteration that may impact any of the heritage attributes described in the Designation By-law.

Listed Properties (Non-designated):

Listed properties are not designated and do not have Designation By-laws registered on title. These properties are included on the Register as having been identified as possessing cultural heritage value or interest.

The Register has been compiled with the assistance of the Town's Heritage Advisory Committee and was approved by Council on February 9, 2021.
