

NOTICE OF MAINTENANCE WORK

HOLLAND LANDING LAGOONS
TOWN OF EAST GWILLIMBURY

IMPROVEMENTS
ARE COMING.
LEARN MORE!

York Region will be working in your community doing routine maintenance on the Holland Landing lagoons. Work will include the removal of biosolids from lagoons one and two.

The contractor will be using Cedar Street to access the lagoons which will result in increased tanker truck traffic along the street. We will ensure the tanker trucks follow the posted speed limits within Holland Landing. Safety is a priority for York Region; please contact us if you have any questions or concerns. The maintenance work has begun and will be finished by January, 2018. York Region appreciates your understanding and thanks you for your patience while the maintenance work is being done.

For questions or comments about the project please contact:
