

NOTICE OF COMPLETION OF ENVIRONMENTAL STUDY REPORT Class Environmental Assessment for Proposed North-South Collector Road in Sharon Community – West of Leslie Street

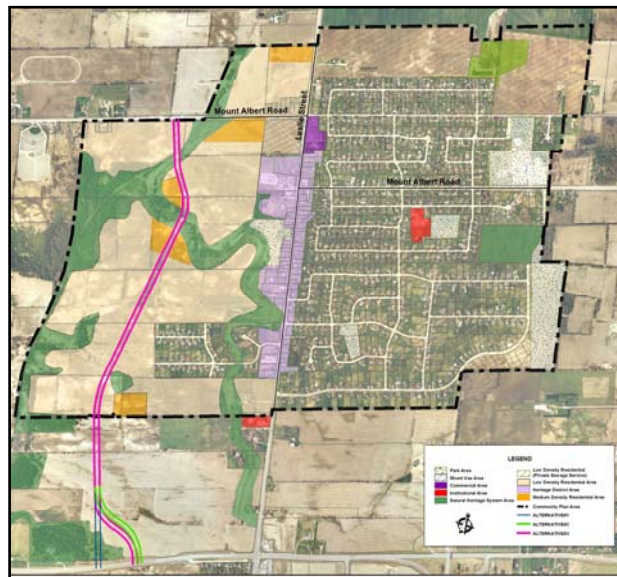

This Class EA undertaking is for the proposed North-South Collector Road running from an intersection with Green Lane West, between the East Holland River and Leslie Street northward through the Sharon West community to Mount Albert Road. The route of much of the proposed road, along with potential impacts and mitigation, has been identified through the Secondary Planning Process and through the Master Environmental and Servicing Plan. Environmental investigations have reviewed alternative routes for the proposed North-South Collector Road in the Sharon Community.

The Class EA for the proposed North-South Collector Road is being undertaken in accordance with the requirements of the Municipal Class Environmental Assessment (2000, as amended in 2007). The project is being planned under "Schedule C".

The first Public Information Centre was held in April 2009 to introduce the study and present alternative road alignment options. The second Public Information Centre was held in June 2009 and presented an evaluation of alternatives and the recommended road alignment.

The Environmental Study Report provides a complete account of the planning process undertaken for this project. The Report has been completed and by this notice is being placed in the public record for review. The Environmental Study Report is available for review on the Town's website (www.eastgwillimbury.ca) and in hardcopy at the the following location:
