THINKING GREEN

With the start of school just around the corner, show your children how to create less waste by sending them to school with a litterless lunch each day.

Reusable food and beverage containers are a great way to pack drinks, snacks and a lunch without creating waste. Plastic bags, drink containers, aluminum foil and wrappers are commonly used to package lunches and as a result, become waste that reaches our landfills. Sending your kids to school with a litterless lunch will not only reduce waste, it will show your kids how they can make a difference when it comes to the environment.
