Having both served as volunteers on East Gwillimbury's Accessibility Advisory Committee, Nick and Peter Grande were well positioned to see the need in the para-transit industry for a specialized vehicle. So they started work on what has become the MV-1, a vehicle engineered to be inherently accessible by people of all abilities. The car was designed to accommodate wheelchairs, with an extra-wide door, specialized ramp, shallow slope, and ample headroom. In 2010, the MV-1 won a da Vinci Award as an innovation that enables equal access and opportunity for all people, regardless of ability. The Grande family has lived in Holland Landing for 33 years and many of their dreams and innovative business models originate in their home garage. They are now the exclusive Canadian distributors of the MV-1, with an expected delivery date in June.

Shown here with the MV-1 are, from left: Mayor Virginia Hackson, Councillor Tara Roy-DiClemente, Councillor Cathy Morton, Peter Grande, Nick Grande, Councillor John Eaton and Councillor Marlene Johnston.
