IRIS FOLDING CARDS

Adult make-it and take-it craft with Ann Bennington

Iris folding is a technique that originated in Holland. Color coordinated strips of folded paper are taped into place over a pattern, creating a spiralling design that resembles the iris of an eye or camera. Originally, Dutch crafters would cut their strips from envelopes with patterned interiors, but now it is common to use lightweight papers. Make a beautiful greeting card with Ann to learn the technique, then you can apply your skills to different cards, scrapbook pages, or designs for framing.

Advance Registration is Required

Cost: \$6.00, includes all materials
