DESCRIBE HOW FUNDS WERE USED Chamber Awards Sponsorship - 2 awards,

BENEFIT TO COMMUNITY

EDAC sponsorship of two chamber awards provided recognition both the Chamber of Commerce and more importantly businesses in East Gwillimbury. While the gala announcing winners has not yet occurred (November 4th), some 7 businesses were nominated for the Business Comm unity Service award, and 17 for the Pandemic Pivot Honour Roll. The latter is a special focus award given the difficult time businesses have endured in the past 18 months. We do not yet know if it will be needed for another year.

2021 APPROVED FUNDING REQUEST

DESCRIBE HOW FUNDS WERE USED

Our proposed budget will support our need to inform the community about our role. Many residents are unaware of our role in the town of EG. We plan to increase our presence in the community by attending various events with a printed handout. We will also use the funds to educate the members of the committee, by attending educational workshops.

BENEFIT TO COMMUNITY

The Accessibility Advisory Committee strongly believes in the need to raise our profile within the community. This will serve to increase our membership, as well as to promote a meaningful dialogue with the community. This will allow us to better fulfill our mandate of responding to the relevant needs of the community.

2022 FUNDING REQUEST

DESCRIPTION

It is the Committee's hope that Pandemic subsides and it will be able to proceed with its proposed program in 2022. Therefore, the Committee respectfully make the following Requests.

1.THAT Council approves \$1,000 for operating funds;

2.THAT Council approves \$6,000 for the Committee to organize a special pilot project art exhibition and sale in conjunction with the 2022 Tapestry of Taste and operate 2 to 3 virtual art shows.

In conjunction with the Committee's terms of reference, to support community engagement and growth in local arts; foster opportunities for creative expression in public spaces; organize art events to enhance quality of life.

The request for \$1,000 in operating funds are requested to assist with anticipated start-up expenses. These are the same expenses requested in the previous year, but was not used due to the Pandemic Lock-Down. We anticipate that these funds will be used in junction with executing the new Public Art Policy.

It is the Arts & Culture Advisory Committee's intention to pursue collaborations with new parks and facilities which are being built across the municipality that present an opportunity for public art, and to continue to work with staff on the new public art policy. Some specific examples include the planning of celebrations for the 200th anniversary of Mt. Albert, with a permanent work of public sculpture; the ongoing participation in planning and organizing both interior and exterior art installations and display at the future HALP in Queensville; and in light of the recently announced significant revitalization grant for the downtown core of Mt. Albert, participate in the planning for capital art investments. A specific budget projection for this committee's Music Cultural event and Art Show and Sale which it wishes to host on its own or with the Town's Tapestry of Taste. As the Tapestry of Taste was cancelled this year due to the Pandemic, the Committee hosted a "virtual" Art Show and Sale this past September.

2021 APPROVED FUNDING

2021 APPROVED FUNDING REQUEST

DESCRIBE HOW FUNDS WERE USED

The funds will be used to facilitate the 2021 Santa Claus Parade. The majority of the funds are used to pay for the bands that perform in the parade. The balance of the funds are used for decorating the Canada Hall, Costumes, The Disc Jockey, Refreshments (juice and cookies) etc.

BENEFIT TO COMMUNITY

The parade is a community event that had been running for over 25 years prior to Covid. It is intended as a fun event for children and their families in our community to kick off the Christmas Season. We have a variety of bands to perform along with Emergency Service vehicles and local community groups who have floats or march in the parade. Santa's float is at the end of the parade and following his arrival at the Canada Hall he meets with the children who come to the hall after the parade. We also provide crafts in the hall for the little ones to play with and free skating for the older children and their parents. This is a social event that is all about community spirit. Juice and cookies are distributed and trophies are presented at the event. We also ran a drive for the food bank during the parade for the two years prior to Covid and hope to carry on this tradition.

2021 APPROVED FUNDING

2021 APPROVED FUNDING REQUEST

DESCRIBE HOW FUNDS WERE USED The funds are used in the planning and execution of our annual Farmers' Market which runs for approximately 22 weeks. The following are some of the ways we have used the funds over the years: 1. Market and advertising including Curbex Signage 2. Repair, maintenance and replacement of signage. 3. Memberships and insurance 4. Entertainment including live bands and Disc jockey 5. Events including opening day, Kids day at the market and Final Market Day Celebration 6. Workshops 7. New endeavours such as the Farmers' Friends club and the General Store 8. Supplies to ensure a safe market space 9. Customer appreciation days 10. Vendor and Volunteer awards and certificates 11. Swag bag giveaways and branded merchandise.

BENEFIT TO COMMUNITY

Our Farmers' Market offers our community many benefits. It is a space families want to come to and spend time with their neighbours. A shopping destination where they know they will find amazing vendors that provide local produce, baked goods and creators that sell unique items. After all, The theme of our market is "Grow it, Bake it, Make it".

However, the farmers market is more than that. Our community and the world has experienced new challenges over the last couple of years and it has changed the way consumers shop. They want to source their food needs more locally and they want to support local businesses more than ever. Our community is craving food education and families, seniors and single people want to learn where their food comes from, how it is grown and how to prepare it. They want a relationship with the people who are growing and making the food their families are eating. Our farmers' Market provides that as a hub for everything local from May to October and we adapt yearly to the needs of the community.

In addition, The Farmers' market supports an active lifestyle encouraging the community to come outside smell the fresh air, enjoy the sunshine and interact with their neighbours. Important for both physical and mental health.

We know locally-owned retailers, such as farmers markets, return more than three times as much of their sales to the local economy compared to chain competitors. They create a bond between producer and consumer that does not occur in traditional grocery stores. Farmers markets are especially suited to the small farmer and artisan. We introduced a Young Entrepreneur program this year, to take advantage of the fact we know markets act as incubators for small business. We wanted to offer the youth of our community this unique opportunity.

In addition, our market creates a community of small business owners who get to learn from each other strengthening their businesses over the five months of the market. Our Farmers' Market ticks many boxes and provides many benefits to the community for a relatively small financial commitment.

BENEFIT TO COMMUNITY

The Car Show is a free event for all community members to enjoy. Vintage to modern cars are on display and each owner is proud to share their knowledge of their vehicle with the public that are interested. The Car Show raises funds through their 50/50 draws to support community programs such as the St. John Ambulance, Therapy Dog Program and Victim Services who in turn work together to support our community. The Therapy Dogs and their handlers visit the show on a regular basis to interact with community members and educate them about the services they provide. They are a great hit at the show. The Car Show at the Civic Centre is a great place to come on a Saturday night.

2021 APPROVED FUNDING

2021 APPROVED FUNDING REQUEST

DESCRIBE HOW FUNDS WERE USED

Thank you to the Town of East Gwillimbury for your financial contribution in 2021. Thanks to your support, we were able to provide 548 rides and monthly friendly phone calls to 79 East Gwillimbury residents in 8 months (Jan-Aug). The East Gwillimbury residents we provide services to experience social, physical, mental and financial limitations to using common transportation methods. Funds were used to provide ride subsidies for residents, recruit and train new volunteers, and promote services in East Gwillimbury. Through the continuing pandemic, we also expanded the friendly calls program, enabling residents to connect socially, while maintaining physical distance. The Friendly Calls program matches residents with similar interests for friendly conversations, thereby reducing social isolation and promoting positive mental health and well-being.

BENEFIT TO COMMUNITY

Routes provides social connections, transportation, community engagement and peer support through our programs and services. We have 3 staff and 97 volunteers. Our volunteers provide safe affordable, compassionate and timely transportation, friendly calls to maintain social connections, and deliveries to residents who experience isolation and challenges to common transportation methods. We have received great feedback from the community on the benefits of our services locally: one friendly caller said "two of my callers stated that they are glad for this service as they were in a "dark place" before this service began". Another said "she (callee) expressed that our chats are often the little pick-me up that she needed. I'm happy knowing that sometimes our chats have made a difference in how she sees herself or have been a boost to her sense of well-being". Residents who received transportation said "I've been having issues getting to my appointments for years so this has helped me and my family for not taking time off of work"

2022 FUNDING REQUEST

DESCRIPTION

As the community continues to recover from the COVID-19 pandemic, Routes will continue to provide our much needed services to residents of East Gwillimbury. For many residents who are not only battling with life threatening illnesses, but also trying to stay safe in the pandemic, Routes provides a lifesaving transportation service, keeping them safe and socially supported. We will utilize funds to continue to provide subsidized rides to residents in need, deliveries for residents who cannot leave their homes due to financial, social and physical limitations, and friendly phone calls to ensure people are socially connected and supported. We will also conduct more outreach and community engagement to ensure residents of East Gwillimbury know about available services and supports, and help strengthen community connections through volunteerism. WE are requesting \$5,000 so we can increase our supports in East Gwillimbury and enhance outreach and engagement to ensure East Gwillimbury residents are aware of the available services and supports.

DESCRIBE HOW FUNDS WERE USED

Funding provided by the Town of East Gwillimbury is used to assist with the operating costs of the Sharon Temple Site.

BENEFIT TO COMMUNITY

The Sharon Temple National Historic Site & Museum is rated the #1 Tourist Destination in East Gwillimbury by Trip Advisor. This provides a benefit to the community by drawing tourism dollars into other businesses in East Gwillimbury. The site is open to the public five days a week from May to October, allowing residents to enjoy guided tours of the heritage buildings, our accessible and sustainable vegetable gardens and our heritage chicken coop. This year the Town of East Gwillimbury Movie and Music nights were held on our site.

2021 APPROVED FUNDING

2021 APPROVED FUNDING REQUEST

DESCRIBE HOW FUNDS WERE USED

- East Gwillimbury Garden and Horticultural Society--How funds were used in 2021:
- To pay for speakers (9 speakers) for our public meetings. Our meetings are always free and well attended by many EG residents and people as far away as Nova Scotia and Quebec!
- Donation to EG Public Library since they have been instrumental in helping us present our meetings online.
- We were also part of the group that paid for the new sign at the Literacy garden and were an integral part of the design process.
- We continued to work in our public gardens and purchased plants to keep them looking beautiful.
- Donation to EG foodbanks

BENEFIT TO COMMUNITY

East Gwillimbury Gardeners' speaker presentations and YouTube videos offer the community a venue to learn about gardening. Speakers and videos are presented free of charge to the community. We also maintain public Facebook and Instagram pages where the community can ask their gardening questions and receive knowledgeable answers. Our work in the public gardens benefits the community by creating welcoming outdoor spaces. We receive many compliments and thanks for keeping these outdoor spaces beautiful. Volunteers who work in the gardens benefit by learning gardening skills. This year we contributed a Black Cherry tree to the Millennium garden in Mount Albert to commemorate Mount Albert's 200th anniversary (Thank you to the Town of EG for planting the tree and for paying for the plaque).

We also donate to two food banks in East Gwillimbury and work with the town in an advisory capacity regarding the direction of some of their park plans. Our Thumbs Up—EG In Bloom contest is enjoyed by many and encourages home owners to create and maintain beautiful front yard gardens.

DESCRIBE HOW FUNDS WERE USED

During 2021 the TOEG funds were utilized to pay our part time Agritourism Coordinator and expand the Farm to Fork Tour to include enhancements such a horse drawn wagon ride and photo booth at the Sharon Temple NHS location and to provide branded cooler bags to tour ticket purchasers. In addition, we used the funding to advertise the event including an ad in the Globe & Mail with other tourism operators within the Central Counties Tourism catchment area.

BENEFIT TO COMMUNITY

The Tourism Committee's mandate is to promote East Gwillimbury as a tourism destination which we do through our annual Farm to Fork Tour and the Farm to Fork Trail. This year's tour was held on October 2nd with 558 people attending, 351 individuals or 63% of which were from outside of the designated tourism perimeter of 40 kilometers. The tour generates significant monies to the participating stops on the tour and in addition attendees purchase lunch, gas, and incidentals at other EG businesses all of which benefits the local economy.

2022 STAFFING DETAIL FORM

Position Title: Assistant Deputy Fire Chief

Department/Branch: ECSS - Operations

OVERVIEW/DESCRIPTION

The Assistant Deputy Fire Chief is part of the revised ECSS organizational structure that was reported to Council on June 1, 2021. Staff received direction to recruit for this position with a competitive recruitment process and report back on the departments key deliverables that are supported by this position. This conversion request formalizes the permanent full time position and provides the requested details.

The Assistant Deputy Fire Chief is responsible for assisting with the management of emergency service operations, including administration, leadership, and discipline in accordance with the Fire Protection and Prevention Act (FPPA) and collective agreements. This position is responsible for oversight of operations (career and paid-on-call), community education and fire prevention, and training. In addition, the business activities in line with the Town's Strategic Priorities, Community Vision, and Council goals and direction; and modelling and championing the Town's values as a Character Community. This position will support the Town's Emergency Management Program as an alternate CEMC and will collaborate as a part of corporate/department working groups and committees. Additionally, the candidate will be available for "on-call/standby" and emergency response outside regular business hours.

ALTERNATIVES

Operations remain status quo.

IMPLICATIONS

Continue to navigate challenges of managing the composite department of 80+ staff.

2022 STAFFING DETAIL FORM

Position Title: Customer Service Representative - Full-time (CSR)

OVERVIEW/DESCRIPTION

The Recreation Service Office is located at the East Gwillimbury Sports Complex. This current part-time position is a front facing staff and currently only provides recreation service support. This part time contract position is currently being funded by the recreation branch operating budget. In 2020, Council approved the full time Recreation Customer Service position but the position was never staffed due to the pandemic. As we enter 2022, the goal is to have a consistent and corporate wide service delivery approach and align this position with Customer Service so that residents can expect consistent service delivery at various locations during regular and "after" hours. This full time position will offer many of the services that Customer Service does such as tax payment, parking tickets, blue box/green bin purchases to name a few. This position will report into Customer Service but have site supervision from the Recreation team. The reporting model for this position also lays the framework for future staffing requirements for the HALP and to support the Operations Centre.

ANALYSIS OF ALTERNATIVE APPROACHES

This position was previously filled on a rotating contract basis through CPRC and was limited in functionality. This request will enhance the customer experience and provide a comprehensive/holistic Customer Service approach to front line service and to ensure staff provide consistent quality service to residents no matter where the resident chooses to access services. FRONT DESK SUPPORTED NUMBERS Recreation Service Desk-Activity Indicators 2017 (based on 12 months) Recreation Service Desk-Activity Indicators 2018 (based on 8 months) Completed Rental Permits/Program Registrations: 20,645 Completed Rental Permits/Program Registrations: 24,561 Telephone Activity: 2,964 Calls Telephone Activity: 1,662 Counter Inquiries: Not tracked for 2018 Counter Inquiries 3,840 Email Communications 4,164 Email Communications: 2,676 Recreation SERVICES Desk- Activity Indicators 2021 (SEPTEMBER ONLY) **September was 50% capacity in the building due to COVID and programs started up third week in September. Completed Rental Permits/Program Registrations: 1100 (+) transactions Telephone Activity: 354 Counter Inquiries: 1500 Email Communication: 200

IMPLICATIONS

Increased, enhanced and consistency Customer Experience. Enhanced internal support/backfill.

Increased payroll/benefits.

Preparation for the growth with the HALP and OPS Centre.

Cross training current CSR staff with Recreation duties.

Consistent Customer Service care across facilities.

BC-002

Department/Branch: Customer Service

2022 NEW STAFF REQUEST FORM

Position Title: Digital and Marketing Coordinator FT (formerly Communications Assis Department/Branch: CS - Communications

OVERVIEW/DESCRIPTION

The position title was previously titled: Communications Assistant (Graphic Design & Marketing). In 2019, Council approved a 2-year contract for the Communications Assistant role. The 2 year contract position was never filled and some of the functions were assumed by an individual hired to create the new eastgwillimbury.ca website. This new request is for a full-time Digital and Marketing Coordinator position. The job title change better reflects the responsibilities. A job evaluation was also completed and the position will be placed in Band 6 Reporting to the Director of Communications. The Digital and Marketing Coordinator is responsible for providing communications, graphic design, photography/video, social media and website support services that promote the Town of East Gwillimbury and the services the municipality delivers. The position will support and work with all departments and, in particular, the Community Parks, Recreation and Culture (CRPC) department. The individual will produce a regular CPRC newsletter and the Recreation Guide including layout, design and production and sell advertising for the guide as well as digital and print advertising within facilities.

ANALYSIS OF ALTERNATIVE APPROACHES

As part of this position, there will be an opportunity to bring in-house items that are currently outsourced, with an opportunity to create advertising and sponsorship revenue for the Town, which could help to offset the cost of this position. Currently there are two full-time functions in the Communications Division. With the development of the website, increased use of social media and a significantly increased body of work which includes communication and community engagement about CPRC and other programs, events, public information centres, planning initiatives, infrastructure development and other major Town initiatives, additional capacity is critical. This position will primarily support CPRC as programs, events and infrastructure initiatives expand. With over 15 EG run or supported community events and growing, public information centres, continued desire to engage the community to promote our 200+ programs a year, drop in programming, facility rental opportunities and birthday party packages the need for consistent messaging and branding is key to that success. Having a dedicated position will be vital to the continued growth and success of all departments programming. This position will also assist in providing consistent and quality marketing materials and website design to other department's residents as the communications teams of two is in need of additional support to continue to maintain current services levels for all departments. As we continue to grow, the requests increase and the current team can no longer meet the demands set out by the departments.

IMPLICATIONS

Increased and enhanced customer experience and recognition. Over the last 5 years, demand for the Town's Communications function has increased. A new position is required. This role will assume responsibility for the Recreation Guide. As such, the costs of producing the guide will be transferred from operating to salary dollars. There is also an opportunity for revenue generation from advertising sales.

2022 STAFFING DETAIL FORM

Position Title: Hybrid Parks/Roads Operator

Department/Branch: CIES/CPRC Joint Position

OVERVIEW/DESCRIPTION

<u>CIES</u> Road Operations branch has been able to meet the regulatory requirements of the Minimum Maintenance Standards with a complement of 7 Operators/Labourers since 2018. With the continued urban growth over this period, highlighted by 36Lkm of roadway and 24km of sidewalk, levels of service expectations are marginally being achieved. An additional Operator will provide necessary winter resourcing for this added inventory and help ensure that adequate staff are available through the balance of the year for ongoing maintenance and construction activities. <u>CPRC</u> Parks Operations will utilize the position during summer months to support maintenance activities of 200+ acres of park and 100+km of trails km from growth. Duties will include primarily Turf and Asset maintenance, in some cases when the position is available in the winter, this position would support expanded winter maintenance activities of park walkways.

ANALYSIS OF ALTERNATIVE APPROACHES

<u>CIES</u> As reported to Council, the Shamrock model is used to balance staff with contracted resources. Given the continued urbanized growth, there is a need for year round maintenance resourcing. During the winter season, supervisory staff commonly supplement front line staff shortages directly impacting effective operational monitoring and supervision of a primary front facing essential service. Year round maintenance activities are increasingly impacted by scheduled staff absences as staff generally are not encouraged to take time off during the winter season. Additional resources are required to ensure routine maintenance is effectively delivered. <u>CPRC</u> Parks operations relies heavily on seasonal staff during peak seasons to maintain assets. In recent years, issues have arisen with hiring seasonal staff and trying to recruit the same people. There is a high amount of turn-over and loss of training and intellectual equity with Seasonal hiring.

IMPLICATIONS

Road maintenance and operations are highly regulated by O Reg. 239/03 (Minimum Maintenance Standards). Urbanized community development since 2018 has continued without added staff resourcing staining the ability to meet these standards and expected levels of service. Through the Shamrock model, supplemental contracted resources will continue to play an important part of the operational service delivery model. Parks maintenance will continue to lose skilled workers to other Municipalities who offer Seasonal staff higher paying positions and full-time opportunities.

Eliminating Overdue Fines

To: Library Board

Date: September 10, 2021

Subject: Eliminating Overdue Fines

Origin: Library Management

ANALYSIS/OVERVIEW

The Library Board approved a fines-free model in response to the global pandemic on June 22, 2020. Furthermore, the Library Board supported the continuation of a fines-free model into 2021, approved on December 15, 2020, with the Library Services Budget.

THE FINE-FREE MOVEMENT IN LIBRARIES

The movement in North American public libraries to go fines-free started several years ago but accelerated in 2020 as most library boards removed fines as part of their COVID-19 response to remove barriers in accessing library services. Close to home, a list of libraries has joined the movement, including Newmarket, Bradford, Vaughan, Ajax, Barrie, Innisfil, Markham, Scugog, and many more. These are systems that have permanently eliminated fines, while many additional libraries are temporarily fines-free due to the provincial state of emergency.

The following York Region Libraries have made changes to their fines program:

Library	Fine Program
Aurora PL	No fines on any materials
Vaughan PL	No fines on any materials
Georgina PL	Fine Free pilot project until Dec 2021
Markham PL	No fines on Teen or Children's cards
Newmarket PL	No fines on all Children's materials
Richmond Hill PL	Fines free for 2021

Library experts agree that there are key reasons to eliminate fines:

- 1. Fines go against the core library value of providing equitable library service
- 2. Access to books promotes lifelong literacy
- 3. Fines are not a sustainable revenue model for public libraries as digital circulation grows and user borrowing trends shift. Fines represent a small percentage of the Library's overall revenue while standing in the way of access to information and literacy. A person having internet access and a device to access digital material will never pay fines, but a person who uses physical books will.
- 4. The staff-time and effort to collect fines can be more than the fine itself
 - a. Time spent running and mailing notices
 - b. Cost of postage for mailers
 - c. Time spent on customer interaction and potential negotiation of reducing fines
- Research suggests that eliminating fines can increase circulation and active card holders. "Checkouts rose 10% at Salt Lake City Public Library, and the number of new cardholders rose 3.5%. Getting rid of fines brought new people into the library and allowed previous users to return" (*Imagining A Fine-Free Future*. https://americanlibrariesmagazine.org/blogs/the-scoop/imagining-finefree-future/2018).

The Ontario Library Association released an infographic that visualizes the social benefit versus the cost of collecting fines:

The temporary removal of fines during a period of significant economic uncertainty supports the Library's Strategic Plan 2019-2022 priority: to create a customer service model that is responsive to the needs of the library user.

Library Management surveyed customer-facing library staff on their 'real-life experiences' of the fine-free approach and staff unanimously report that it has led to better and more positive customer interactions. One staff member said that they enjoy being fines-free because it puts a "big smile on customers faces when they do not have to pay a fine which translates to an even more positive customer experience in the library." No matter what the cost, staff report that they still have a difficult time telling customers they have fines. The punitive system of fines and being blocked can result in negative customer experiences as well as hamper the relationship between staff and the community.

One of our core values is to support and encourage literacy and lifelong learning. Limiting fines to certain collections, for example removing juvenile fines but upholding adult fines, can be a barrier for adults experiencing low-income while benefiting families with greater access to wealth. Eliminating overdue fines for all collections supports an inclusive, barrier-free system that encourages a lifelong relationship with the library.

THE DATA

While the Library saw an increase in overdue items in 2020 compared to previous years, it is not believed that this trend is a direct result of going fine-free. Social anxiety around going out and touching the drop box and decreased opportunities for in-person library visits impacted the library's follow up with customers as library hours were reduced by 50%. In 2021, we have seen some stabilization of overdue material despite being closed for in-person services 17 of the 36 weeks YTD. As society resumes regular rhythms and service, customer visits to the library will increase, which may result in a higher return rate of materials as returns are part of the destination.

When comparing collection size (56,300 physical items) to the number of current overdue items (519), this represents 0.9% of the Library's total collection. When comparing collection size (56,300) to the number lost items (nine in 2021 YTD), this represents 0.02% of the collection. In 2020, where the Library saw a spike in lost items due to the closure, the total was 95 lost items, representing just 0.17% of the collection. The financial cost of lost items was approximately \$2,500 and in 2021 year-to-date, the cost of lost items is \$95.00.

Overdue statistics show that, overall, customers are returning their materials but are doing so on average two weeks late. The Library is exploring an auto-renew option as part our strategic direction to offer convenient services; however, even without this feature, the overall number of overdue materials is less than 1% of the total collection and the number of lost items remains low. As of September 9, 2021 the Library saw 40,095 circulations of physical items in 2021. Year-to-date cumulative overdues is 519. Thus, 1.29% of circulated items in 2021 have been returned late, representing

approximately \$1,800 in revenue. While there is lost revenue from overdue fines, the library will still maintain revenue from replacing lost items, and the social benefit of a positive library experience coupled with a Pay-It-Forward box is of greater value than maintaining fines.

Data from the Canadian Urban Libraries Council (CULC) who completed in-depth studies of fines and user patterns suggests that fines increase social inequality and affect the most vulnerable. Calgary, Edmonton, and Toronto public libraries discovered that customers from visible minorities or low-income areas are blocked at higher rates than other user groups due to overdue fines. At EGPL, cards are blocked when the user has reached \$20 in fines, disabling them from checking out any material until their fines are lowered. This includes adult and juvenile cardholders.

Outside of EGPL, library fines were declining prior to COVID-19 due to the increase in digital content, where fines are not present due to the automation of returns, and because of enhanced features including automatic renewals, access to online accounts, and improved communications. At EGPL, digital circulation grew 48% in 2020. This gives evidence that even with a fines system in place, digital circulation is increasing and does not add to the Library's revenue.

OTHER REVENUE SOURCES

The library will have an opportunity to focus on collecting revenue from other sources, including:

- Donation based fines: In-lieu of collecting overdue fines, customers may instead donate to library programs and services in the form of a "Pay-it-Forward" box.
- Access to technology: The expanding technology collection gives EGPL the opportunity to offer equipment rental for fees for Makerspace items such as Cricut cutters and 3D printers.
- Merchandise: Expand current Library merchandise to include a wider selection of Library or literary-themed items.
- Expanded printing options for customers: Investigate adding a prepaid print card option, offer a wider selection of paper sizes and quality.

RECOMMENDATION TO ADOPT A FINES-FREE MODEL

Upon careful review and consideration, the Library Management Team is recommending the elimination of all overdue fines permanently.

Having resumed normal service hours in August 2021, the Library anticipates customers may return items more readily with increased opportunities for in-person visits.

FINANCIAL IMPLICATIONS

The Library is presenting the same revenue forecast in the 2022 budget that was presented in the 2021 budget in anticipation of increased revenue from programs and printing services, as well as the Pay-It-Forward box. It is hoped that 2022 will resemble a typical year of library operations versus 2020-2021.

All revenue, including desk receipts and programming receipts, are applied to the Library's gross budget. Revenue generated specifically through fines is not applied to a specific program or service. If the Library were to eliminate fines in 2022, it does not have a direct impact on specific library services or programming but impacts the Library's gross budget. Removal of fines may impact the Library's year-end surplus, if applicable.

SUMMARY

In summary, the impacts of eliminating fines include growth in active cardholders and circulation, an inclusive library system, positive customer experiences that can lead to lifelong use, increased use by teachers, students, and childcare providers, and reducing staff time spent on processing fines and using that time to build strong communities. Fines represent a social inequity issue that leaves some behind; the social impacts listed above outweigh the loss of revenue. The more people that use the municipally funded public library, the more efficient it is.
