

Town of  
**East Gwillimbury**

**Office of the Mayor**

---

Mayor Virginia Hackson, B.A., B.Ed.

March 13, 2020

The health and safety of our residents and employees is always our top priority. The Town is taking proactive measures to mitigate risks and help to eliminate potential community spread of COVID-19. The Town is working with the Northern Six municipalities to implement consistent approaches where possible. The Town has also been working with York Region, provincial, and national health agencies to monitor the rapidly changing response to COVID-19. The Town will continue to monitor developments and will provide further updates as appropriate.

Right now, we are in uncharted territory. I would like to remind residents to take care of yourselves, families, and neighbours. The best thing you can do is stay apprised of any updates using the links our staff have provided below. If you can take away one message, it is important to remember that:

**Regular handwashing, proper cough and sneeze etiquette and social distancing are your best defence against spreading all illnesses, including COVID-19.**

We thank all residents for their patience and understanding as we continue to respond to this rapidly changing situation.
