

NOTICE OF WORK

CRACK SEALING IN ASPHALT PAVEMENT

As of Thursday, August 5th, Roadmaster Road Construction & Sealing Ltd. may be on your street and neighbourhood performing road crack sealing repairs.

All roads will remain opened during this time, lanes will only be reduced where the crew is actively working.

We apologize in advance for any delays and inconvenience this work may cause. Driveways are not expected to be blocked, if necessary it would be for a limited time only.

Weather permitting, work is expected to begin on Thursday, August 5th and all streets are expected to be complete by Friday, August 20th. This project covers many roads across Town and work typically lasts for a few hours per street. Road sweeping will commence approx. 2-3 days prior to the sealant placement and 2-3 weeks post sealant to remove road grindings.

If you have any further comments or questions, please contact:

Mr. Jim Drescher
Senior Municipal Inspector
