

## Yonge Street Revitalization – Start of Construction

Dear Resident,

This is to inform you that construction for the Yonge Street Revitalization is scheduled to begin soon. The construction schedule (weather permitting) is as follows:

### Week of July 7

- The contractor will mobilize some equipment (weather permitting) and complete assessments of the entire work area and layouts. This includes pre-construction photos of the work area and properties fronting the work area. Once completed, they will begin installing temporary construction fencing and safety signage for pedestrian access.

### Week of July 13

- The contractor will continue with temporary construction fence installation and signage as needed. The contractor will start removal work and provide advance notice for residents directly affected by this work where alternative access will be needed.

### Week of July 20 and onwards

- Construction is expected to fully begin.

The contractor is required to ensure that their work areas remain safe and that public safety is maintained. We ask that residents and the public respect the safety measures and signage placed by the contractor to ensure that all work proceeds unhindered and in a safe manner.

We also kindly ask that residents remove any personal items along the boulevard in front of their property within the public roadway that they wish to retain.

Should you have any questions or concerns, please do not hesitate to contact us.
