The sign shall have black lettering on a white background and be clearly visible from the street. The lettering should be plain upper case [Helvetica medium or similar typeface].

The sign shall be completely unobstructed, clearly visible from the street, and shall not be set back more than 15 feet from the lot line.

The notice shall contain the following information and in the following form:

NOTICE

A Consent Application [File No.: B___/___] has been made to facilitate the creation of one additional residential lot. A public meeting has been scheduled for _____ at 7:00 p.m. to be held at the East Gwillimbury Civic Centre, 19000 Leslie Street, Sharon, to discuss this matter.

For further information contact the Town of East Gwillimbury, Committee of Adjustment [Telephone No. 478-4282].

All proposed wording should be approved by the Town.

The applicant and/or owner of the lands shall be responsible for preparing, erecting and maintaining the sign and the removal of same and all costs involved.

Failure to erect the prescribed sign and maintain such in good order may be considered sufficient grounds to stop the processing of the application at any time.

6. APPLICATION PROCESS

It is recommended that the owner/agent meet with Planning Staff prior to making the formal submission to ascertain whether the proposal will conform with the provisions of the Official Plan and Zoning By-law, etc. If the proposal does not conform, it should be altered so that it does conform, or if, following consultation, it appears reasonable to do so, you may wish to make application to Council for appropriate amendments to the relevant documents. This pre-consultation should also assist in avoiding delays due to incomplete applications or lacking information requirements. Staff may also recommend pre-consultation with other applicable commenting public bodies or agencies.

Conformity with the Official Plan and Zoning By-law does not mean the application will automatically be approved. The Committee is also required to have regard to the health, safety, convenience and welfare of the present and future inhabitants of the Municipality and to other matters, such as:

- the effect of the proposal on matters of Provincial interest;
- whether a plan of subdivision is necessary for the property and orderly development of the Municipality;
- whether the proposal is premature or in the public interest;
- whether the proposal conforms to adjacent lots;
- the suitability of the land for the purposes for which consent is required;
- the dimensions and shape of any proposed lot;
- the restrictions or proposed restrictions, if any, on the land, buildings and structures proposed to be erected thereon and the restrictions, if any, on adjoining lands;
- conservation of natural resources and flood control;
- the adequacy of utilities and Municipal services;

Town of East Gwillimbury

- the adequacy of school sites;
- the area of land, if any, within the proposal that, exclusive of highways, is to be conveyed for public purposes; and
- the physical layout of the lots having regard to energy conservation.

Once the completed application has been submitted, a request for written comments is sent to various agencies. A notice of your proposal is also sent to property owners within 60 metres [200 feet] of the subject lands. These owners will have the right to attend the scheduled Hearing and express any concerns or support they may have to the Committee. The request for comments and notices of hearing are circulated a minimum of fourteen days prior to the date when the application is to be heard by the Committee.

The applicant, his/her staff and/or consultant, is required to attend the public meeting. They should be prepared to make a brief presentation of the proposal and answer any questions that may arise.

The Committee may impose such conditions to the approval of an application for consent as, in its opinion are reasonable, having regard to the nature of the development proposed for the resulting lots, such as:

- the payment of applicable Municipal and Regional development charges;
- that conveyance of lands for park purposes or, alternatively, the payment of a cash-in-lieu of parkland levy;
- when the subject land abuts on an existing highway, that conveyance of land, other than land occupied by buildings or structures, to provide for the widening of the highway to such width as the Committee considers necessary; and
- the entering into of one or more agreements with the Municipality dealing with such matters as the Committee may consider necessary including the provision of Municipal services.

Once the Committee has considered all evidence available, they will make their decision. The written decision will be mailed within fifteen days from the date in which the Committee made its decision. From the date of the giving of the notice of decision, there is a twenty day waiting period within which the decision may be appealed.

If no appeal is lodged, the decision of the Committee is final and binding. The owner then has one year from the date of written notice of the decision to fulfil the conditions of approval imposed by the Committee. If the conditions are not fulfilled within one year, the application for consent is deemed to be refused.

Once the conditions outlined in Item No. 26 above are fulfilled, the Secretary-Treasurer of the Committee will issue a certificate stating that consent has been given. The owner then has two years from the date of the certificate to complete the transaction in respect of which the consent was given.

If an appeal is lodged, a record of information pertaining to the Application will be forwarded to the Ontario Municipal Board [O.M.B.]. The O.M.B. will schedule and hold a public hearing to decide the final disposition of the application.
