Fleming &
Associates

Sidewalk

Scope of Project

New 1.5m wide concrete sidewalk in the north boulevard of Mount Albert Road from Conn Drive to the East Gwillimbury Sports Complex a distance of 700 metres.

Construction Timing:

- ❑ Construction is tentatively forecasted to occur between 2026 and 2028, with all construction occurring in one year. Budget approval is required, and timing will be reviewed every year during the annual capital budget process.
- ❑ Once the budget is approved and the construction contract is awarded, area residents would receive a delivered Notice of Work providing advanced notice, construction details and anticipated timing.

Project Area: Rogers Road

Existing Conditions:

- The road pavement is in poor condition
- No vehicular turnaround at east end
- Narrow Road width varying from 4m to 5.5m

Poor Road Condition

No Vehicular Turnaround

Narrow Road Width

Rogers Road

Proposed Improvement:

- ❑ Full depth road reconstruction
- ❑ Straighten the road alignment
- ❑ Widen the road pavement to 7.0m
- ❑ Add vehicle turnaround at the east end
- ❑ Construction tentatively forecasted to occur between 2025 and 2028, with all construction occurring in one year. Budget approval is required, and timing will be reviewed every year during the annual capital budget process.
- ❑ Once the budget is approved and the construction contract is awarded, area residents would receive a delivered Notice of Work providing advanced notice, construction details and anticipated timing.

Project Area: Intersection of Queensville Sideroad and Centre Street

Existing Conditions:

- Limited visibility in various directions
- The intersection is an all-way stop with a flashing beacon
- Posted Speed on Queensville Sdrd: 40km/h
- Posted Speed on Centre St.: 60km/h

Limited visibility
in various
directions

Poor Pavement
condition

Single luminaire at
corner of intersection

Proposed Improvement & Timing:

- ❑ This phase of the project is the preliminary design
- ❑ A detailed design will follow, tentatively scheduled for 2025, pending budget approval
- ❑ Construction tentatively forecasted for 2026-2028, pending budget approval
- ❑ Full depth road reconstruction
- ❑ Maintain all-way stop at intersection
- ❑ Review of existing and proposed speed limits
- ❑ Increase visibility on Centre Street and Queensville Sdrd with vertical improvements (cut & fill)
- ❑ Potential streetlighting within the project limits

Thank You

We appreciate your time and interest in these projects
