

NOTICE OF CONSTRUCTION

Sherwood Forest Pumping Station and Holland Landing Elevated Tank Upgrades

In the Town of East Gwillimbury

The Regional Municipality of York is making improvements at the Sherwood Forest Pumping Station and Holland Landing Elevated Tank located at 2 Pear Blossom Way, in the Town of East Gwillimbury. The work will extend the life of the pumping station and elevated tank, and support the continued supply of safe, quality drinking water to your community.

When? July 2022 to May 2023

What Can You Expect?

- Access to all homes and buildings will be maintained
- There is no impact to your water services
- Construction will be limited to the work site, however there may be increased construction-related traffic in and out of the site
- Due to the nature of the work, there will be some construction-related noise and dust from the equipment and trucks, though every effort to minimize this will be made

Thank you for your patience while we complete this vital work. As with all construction projects, some work may be re-scheduled due to weather or other conditions.

This summer, be water smart. Commit to minimizing your water use by turning off the tap while brushing your teeth.
